

# Cook Islands, South Pacific

On our tour, we visit three very different South Pacific islands.

We learn about their history, nature and culture. We spot unique birds and snorkel among beautiful fishes. We hike on lush green mountains and through fossil coral reefs. We hear the stories about a museum collection. We witness vibrant Polynesian dance and feel the drum beats. We experience both traditions and contemporary life in the Cook Islands.

We get to know Cook Islanders in conversation beyond tourism.

For booking arrangements, deposits, payment deadlines and cancellations, please inquire at Events@dmck.co.ck.

Tour leader Judith Kunzlé has lived in Rarotonga for 27 years. She has been leading this

tour in the Cook Islands since 2009 for InterNational ParkTours, an Australian tour company.

Judith is an internationally recognized artist for her work on Cook Islands dance.

She has illustrated animals and plants for the Cook Islands Natural Heritage Trust, and worked on expedition cruise ships, the World Discoverer and the National Geographic Endeavour, as the ship's artist in the South Pacific.

Our tour is based on Judith's insight and her artist's eye, combined with her passion for nature and the environment – and her many local friends. Judith's program is packed with action and participation, and balanced with being in beautiful places, taking it all in. She will be joined by local guides on each island who share their views and experiences of life in "The Cooks".

We invite experienced and experimental travelers to join Judith to get to know and enjoy her three favourite islands, Rarotonga, Atiu and Aitutaki, their geological history, their nature and their people.
