Polynesian Pearl Odyssey

In the early 19th Century, European pearl traders were visiting Manihiki to harvest the black lipped oyster shell for the making of Mother of Pearl buttons. One hundred and fifty years later the Williams family of Manihiki began culturing pearls on an organised underwater pearl farm, the genesis of what was to become the local family owned pearl industry on the island.

The Polynesian Pearl Odyssey is a unique journey to Manihiki atoll where you, and your special partner will meet with pearl farmers and see first-hand, how these fabulous gems are cultured in the clear blue waters of the lagoon.

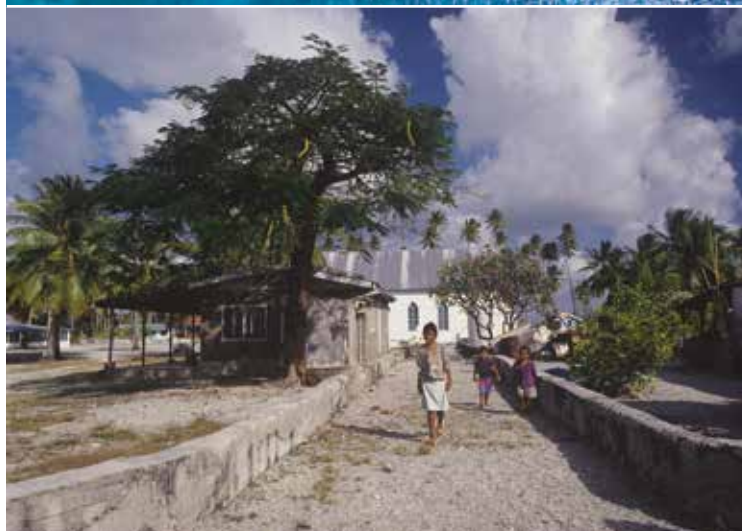

Travel is by private jet—a two hour flight from Rarotonga, and accompanying you will be a concierge and personal chef to attend to every detail of your 2 night—3 day experience, including all meals and activities.

Accommodation is a comfortable loft above a pearl seeding house located right on the lagoons edge. During your stay here you will visit a kaoa (small outcrop housing a pearl seeding platform) and enjoy a picnic lunch surrounded by the vast expanse of one of the South Pacific's pristine lagoons. Snorkel above the pearl farm and watch divers collecting shells for harvest and see how the oysters are seeded.

Northern Atolls Expedition

This four-night excursion takes you on a rare opportunity to visit some of the most remote atolls in the Pacific – Pukapuka, Manihiki, and Penrhyn.

From Rarotonga your first stop is Pukapuka. Landing on the southern motu (islet), you will travel about an hour by boat across Pukapuka's lagoon to the main settlement at Wale. Pukapuka has strong community organisation and visionary environmental management practices that have sustained its people for centuries. Explore this fascinating island at your own pace.

Day 2 & 3 has you experiencing the raw beauty, tropical seclusion and authentic island hospitality of Manihiki – home of the Cook Islands black pearl. Here the lagoon is dotted with small structures perched on coral heads, serving as platforms for the seeding of oysters that will, after two years, yield a lustrous south seas black pearl.

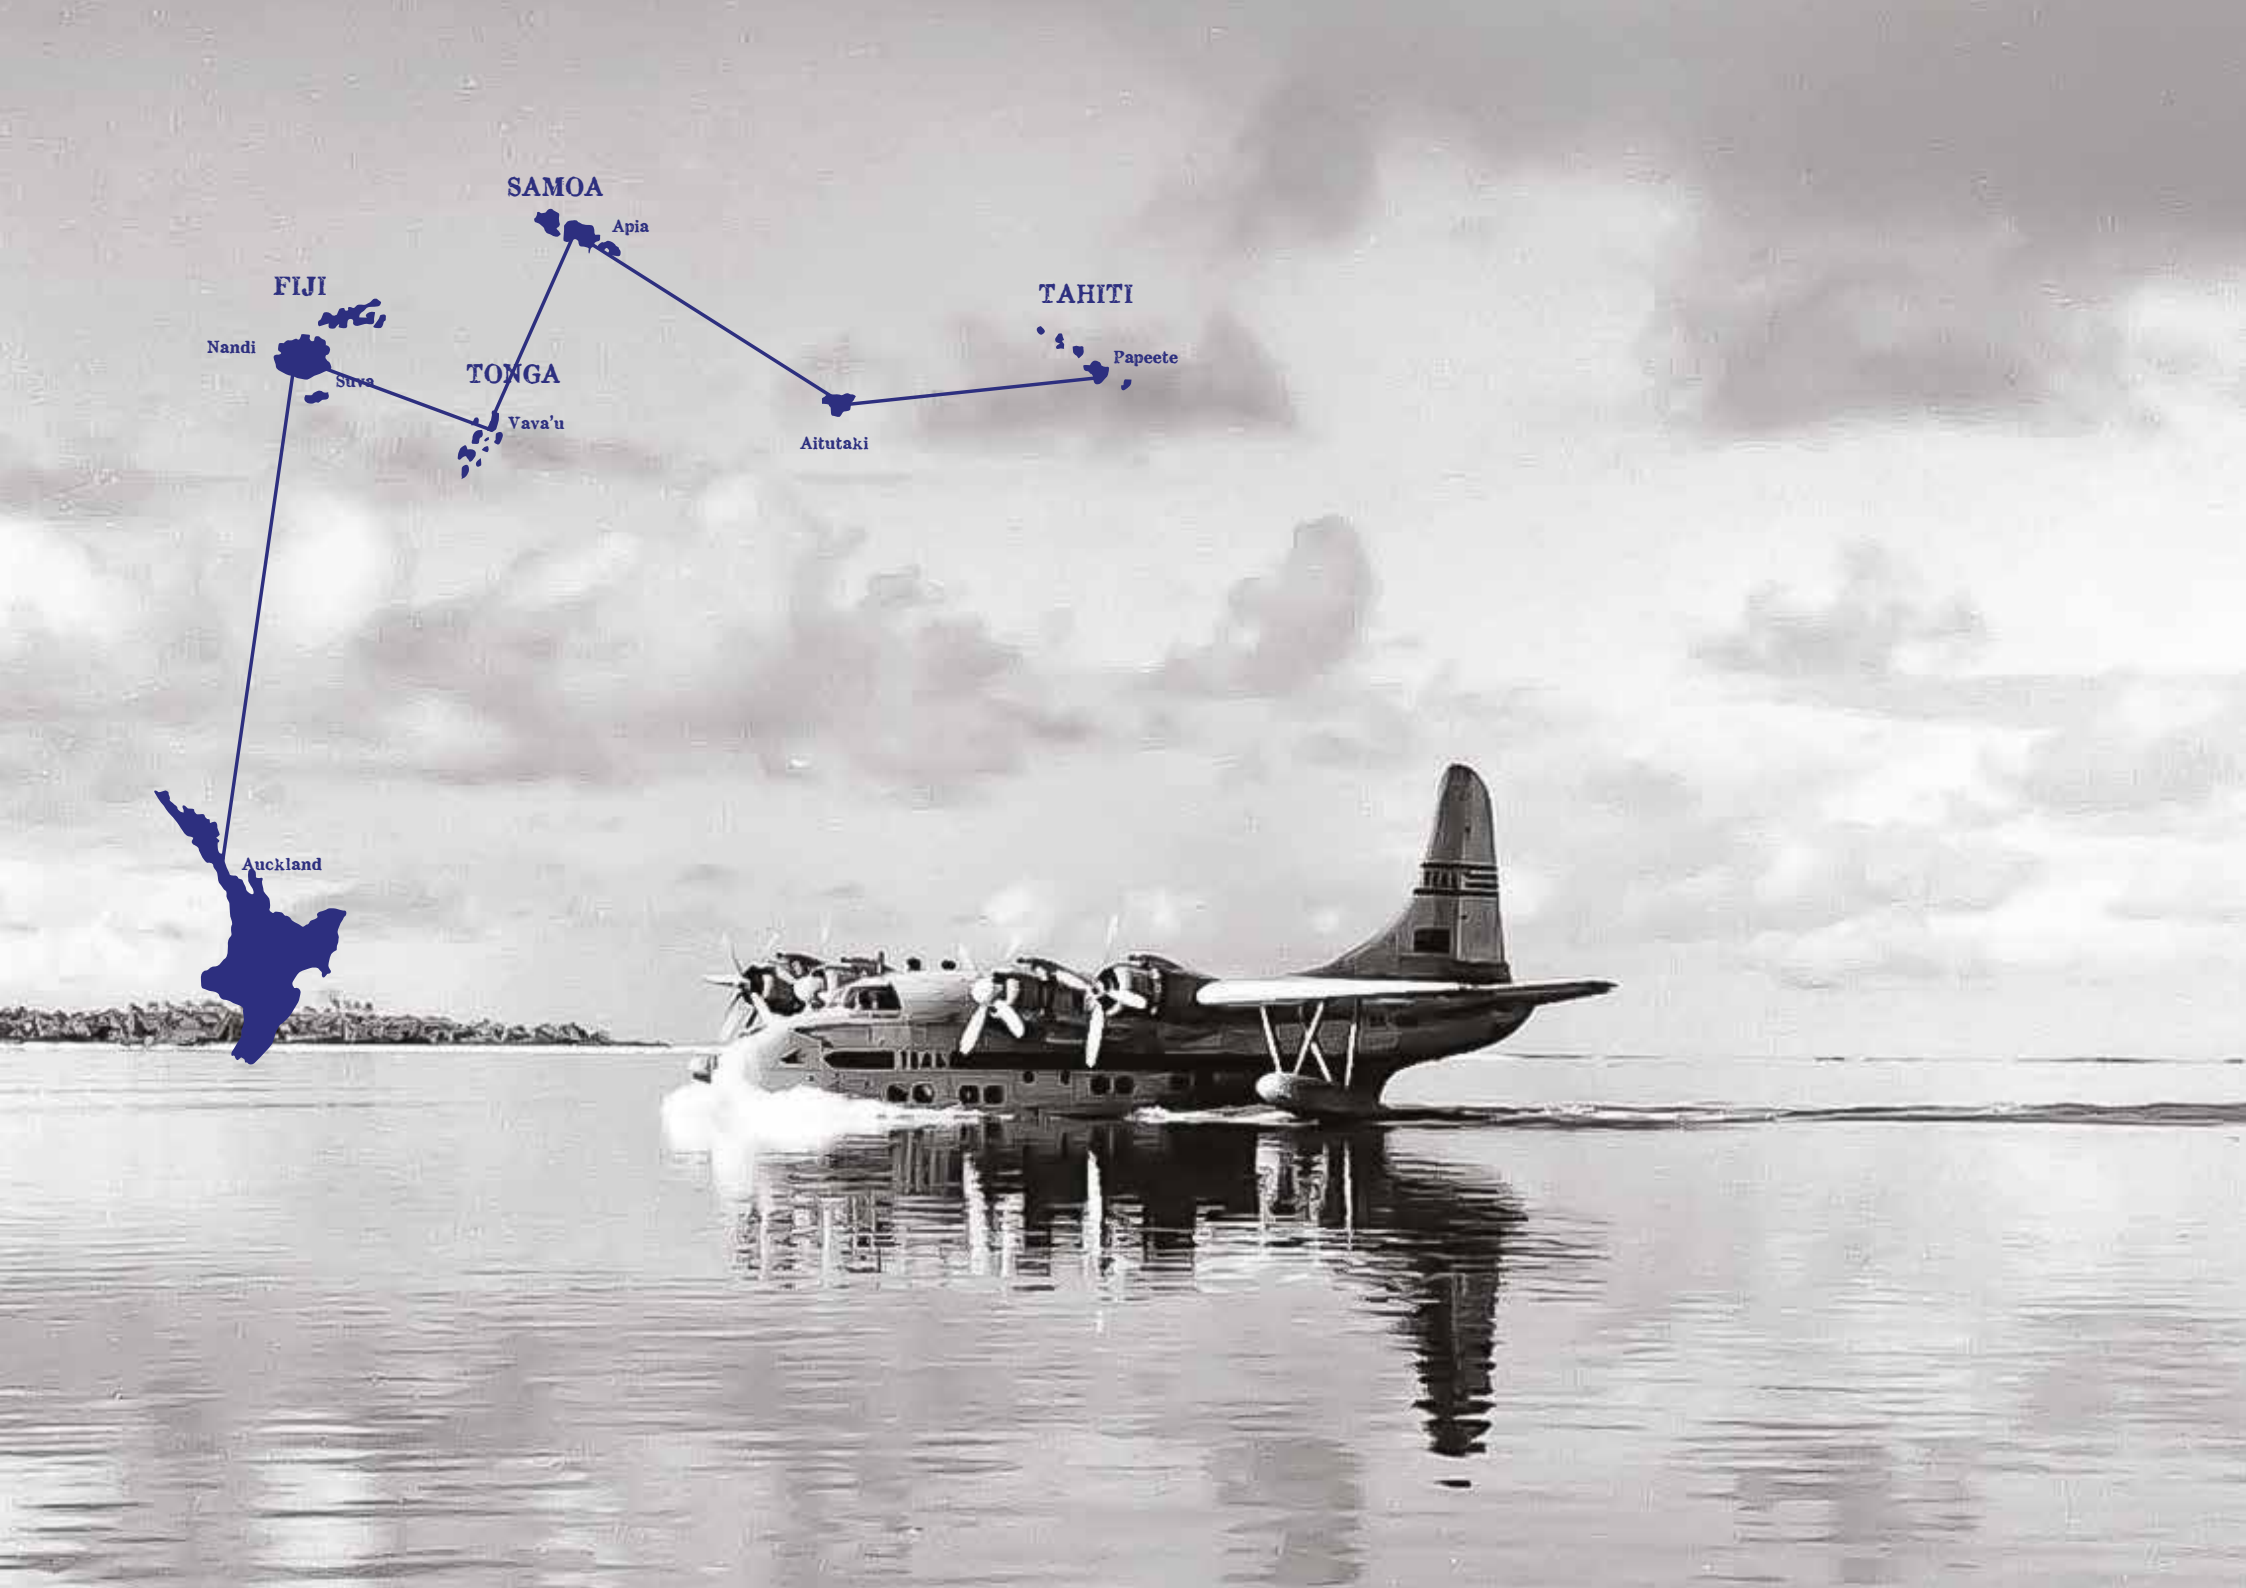

Day 4 takes you to Penrhyn, the northern-most island of the Cook Islands, and home to approximately 160 islanders who spend their days fishing, collecting natural golden pearls or weaving exquisite hats and fans from rito (dried coconut fronds). Penrhyn's piercing blue lagoon is breath-taking. If you thought Aitutaki's lagoon was beautiful, wait until you see Penrhyn's.

Day 5 brings you back to Rarotonga.
